FINAL CALL FOR PAPERS

AiML '98

Advances in Modal Logic '98

October 16–18, 1998

Uppsala University, Uppsala, Sweden

Programme Committee:
Maarten de Rijke, *Amsterdam*
Krister Segerberg, *Uppsala*
Heinrich Wansing, *Leipzig*
Michael Zakharyaschev, *Berlin*

Programme Chair:
Michael Zakharyaschev
Institute of Applied Mathematics
Russian Academy of Sciences
Miusskaya Square 4
125047 Moscow, RUSSIA

Submissions:
Electronic submissions should be sent to Heinrich Wansing at `wansing@rz.uni-leipzig.de`

AiML Steering Committee:
Maarten de Rijke, *Amsterdam*
Heinrich Wansing, *Leipzig*
Michael Zakharyaschev, *Moscow*

AiML Advisory Board:
Johan van Benthem, *Amsterdam*
Max Cresswell, *Wellington*
Luis Fariñas del Cerro, *Toulouse*
Larry Moss, *Indiana*
Krister Segerberg, *Uppsala*
Colin Stirling, *Edinburgh*

Important Dates:

Submission deadline:	June 1, 1998
Notification:	August 1, 1998
Workshop:	October 16–18, 1998
Preliminary version for workshop volume due:	At the workshop
Notification of acceptance for publication:	December 1, 1998

Further Information:
Email enquiries about the AiML '98 workshop should be directed to `Krister.Segerberg@filosofi.uu.se`. Information about the AiML initiative can be obtained on the World-Wide Web at `http://www.wins.uva.nl/~mdr/AiML`.

Advances in Modal Logic is an initiative aimed at presenting an up-to-date picture of the state of the art in modal logic and its many applications. The initiative consists of a workshops series together with volumes based on those workshops.

Advances in Modal Logic '98 is the second workshop organized as part of this initiative. AiML '98 will be held from October 16–18, 1998 in Uppsala, Sweden. The workshop is intended for users of modal logic in cognition, computing, and language, as well as for logicians working in modal logic.

Topics. The AiML '98 workshop will be organized around a number of thematic areas:

- modal logics of agency and normative systems
- algebraic and model-theoretic aspects of modal logic
- modal approaches to grammar and natural language semantics
- computational aspects of modal logic
- philosophical aspects of modal logic
- modal logic and belief revision.

Papers on related subjects will also be considered.

Special Session. During the workshop there will be a special afternoon session on modal logic and belief revision; this session will be chaired by Sven-Ove Hannson and Sten Lindström.

Invited Speakers. Invited speakers include J. van Benthem, K. Fine, D.M. Gabbay, J. Horty, M. Kracht, and R. Parikh.

Paper Submission. Authors are invited to submit a detailed abstract of a full paper of at most 10 pages by e-mail to **Heinrich Wansing** at `wansing@rz.uni-leipzig.de`, using 'AiML98 Submission' as the subject line. The cover page should include title, authors, and the coordinates of the corresponding author. Following this it should be indicated which of the thematic areas best describes the content of the paper (if none is appropriate, please give a set of keywords that best describe the topic of the paper).

To be considered, submissions must be received no later than June 1, 1998. The preliminary version of the full paper to be included in a planned volume from the workshop should be available at the workshop; the volume will be submitted to CSLI Publications. Authors will be notified of the acceptance of their paper by December 1, 1998.

Sponsors. AiML '98 is generously sponsored by Neurotec Hochtechnologie GmbH, the Spinoza projet 'Logic in Action' at the University of Amsterdam, the Compulog Net network for Computational Logic, the Swedish Royal Academy of Science, and the University of Uppsala.
